Experience

JUL 2022 - PRESENT

Freelance – UI Designer

- Proficient in using Figma to design high-fidelity prototypes, wireframes, and user interfaces for web and mobile applications.
- Developed a strong understanding of design systems and component libraries in Figma and Webflow, allowing for efficient design and consistent branding across projects.
- Implemented advanced Webflow features, such as animations, interactions, and custom CMS collections, to enhance the user experience and provide dynamic content.
- Demonstrated strong problem-solving skills by troubleshooting and resolving technical issues in both Figma and Webflow projects.
- Utilized Webflow to build responsive and dynamic websites with clean code and optimized performance.

MAR 2019 - MAY 2020

Etech7, NY – IT Support Specialist

- Provided technical support to end-users across multiple departments and teams, troubleshooting and resolving issues in a timely and efficient manner.
- Developed and delivered training programs for end-users, helping to increase their technical knowledge and proficiency.
- Conducted regular network audits and assessments to identify vulnerabilities and improve system performance and security.
- Stayed up-to-date with the latest IT trends and technologies, and provided recommendations to improve the company's IT infrastructure and operations.

JUN 2017 - FEB 2019

Spot Canine Club, NY – Frontdesk Help

- Responded to customer inquiries, both in person and over the phone, and provided information on daycare services, pricing, and policies
- Trained new staff members on front desk procedures and customer service skills.
- Processed payments and maintained accurate records of transactions using the daycare's computer software
